

To the parents of all

grade students

7th Grade Teacher Requests will be limited to those current 6th graders who have provided proof of Tdap and all other legally required immunizations by May 08, 2020 to the school.

Students who have not provided proof of current immunizations before the first day of school will be excluded from school during the 2020-2021 school year until proof of immunizations is submitted to the office.

This year, immunization laws are changing and are subject to further change. Currently, all incoming 7th grade students will need proof of their Tdap booster shot before starting the 2020-2021 school year. State law also requires the proof of the following immunizations: 5 doses of TDP, 4 doses of polio, 2 doses of varicella, 2 doses of MMR and 3 doses of Hepatitis B; however most students have already received these immunizations. Most students will only need to receive the Tdap booster. Parents who are unsure of which immunizations their student needs may contact Nurse Whitney.

Exemptions based on personal beliefs are no longer an option for the immunizations that are required for entry into childcare or school in California. Any student with a personal or religious belief waiver on file for any shots will need to obtain the immunizations or get a Medical Exemption from an M.D. or D.O.
